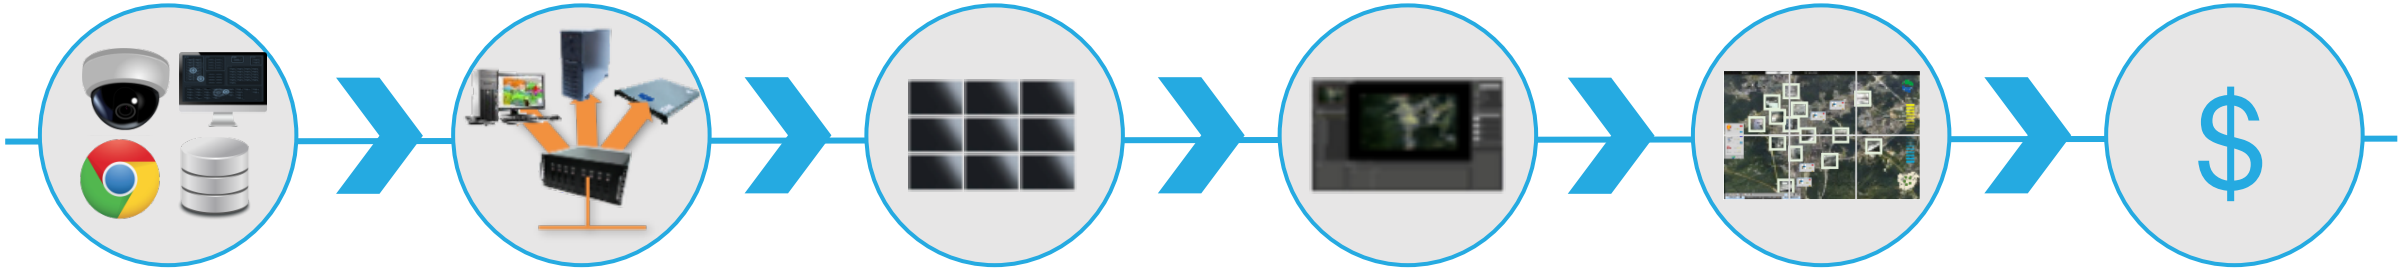
IoT VISUALIZATION PLATFORM

N3N enables enterprises to visualize on a Single-Pane-of-Glass which provides comprehensive visibility into their operations.

- Detect and monitor potential issues
- Recognize patterns and initiate immediate action
- Deliver predictive analytics

WHAT WE DO



Collect Input

Everything you want to see!

Transmit/Distribute

Maximize bandwidth efficiency

Display/Operate

Create the ultimate wall display

Create Content

Easy map customization

Monitor/Control

Integrated control environment with remote access

Maintenance

Minimize TCO

SINGLE-PANE-OF-GLASS

VIEW CREATION

The N3N Solution comes with a screen layout editing tool called **iEDITOR**.

The tool makes it easy for users to make changes to maps, blueprints, camera video feeds, data and alarm scenario integrations.

Easy monitoring with integrated screen layout
