

INNOVATIVE,  
UTILITY SCALE,  
TWO BLADED  
WIND TURBINES

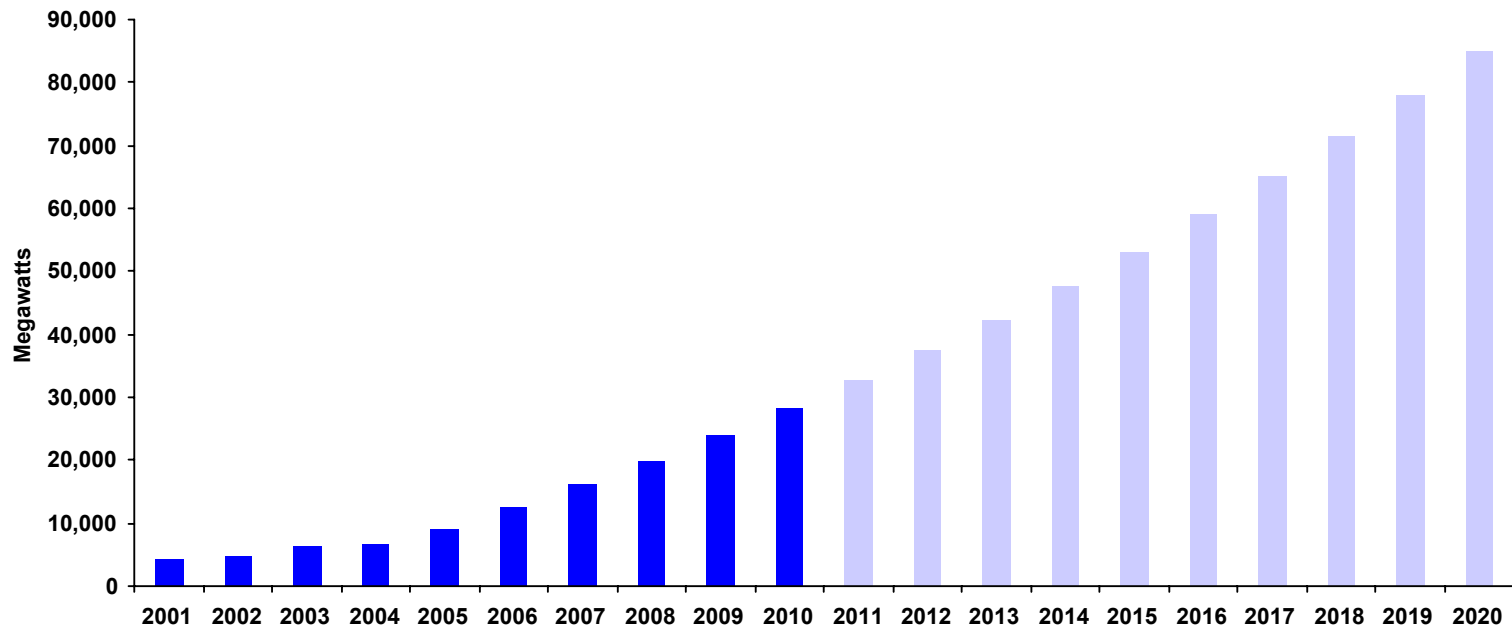

Prakash Ramachandran  
Chief Financial Officer

## Highlights

- Large & Growing Market for wind energy
- Experienced Management Team
- Proven, Reliable Technology
  - inherent cost advantage of 10% or more
- Funded by Goldman Sachs and other renewable energy investors

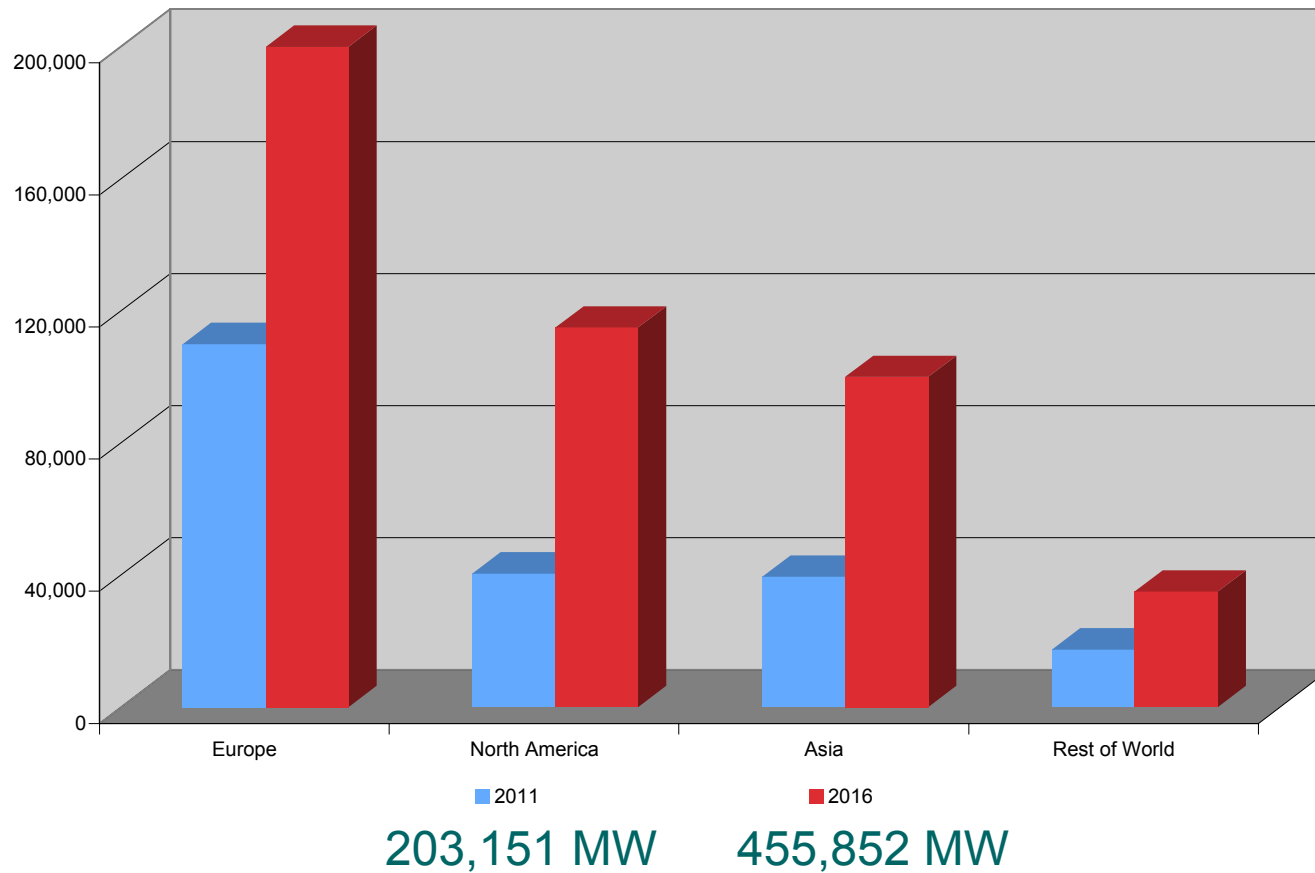

## Windpower experiencing explosive growth worldwide

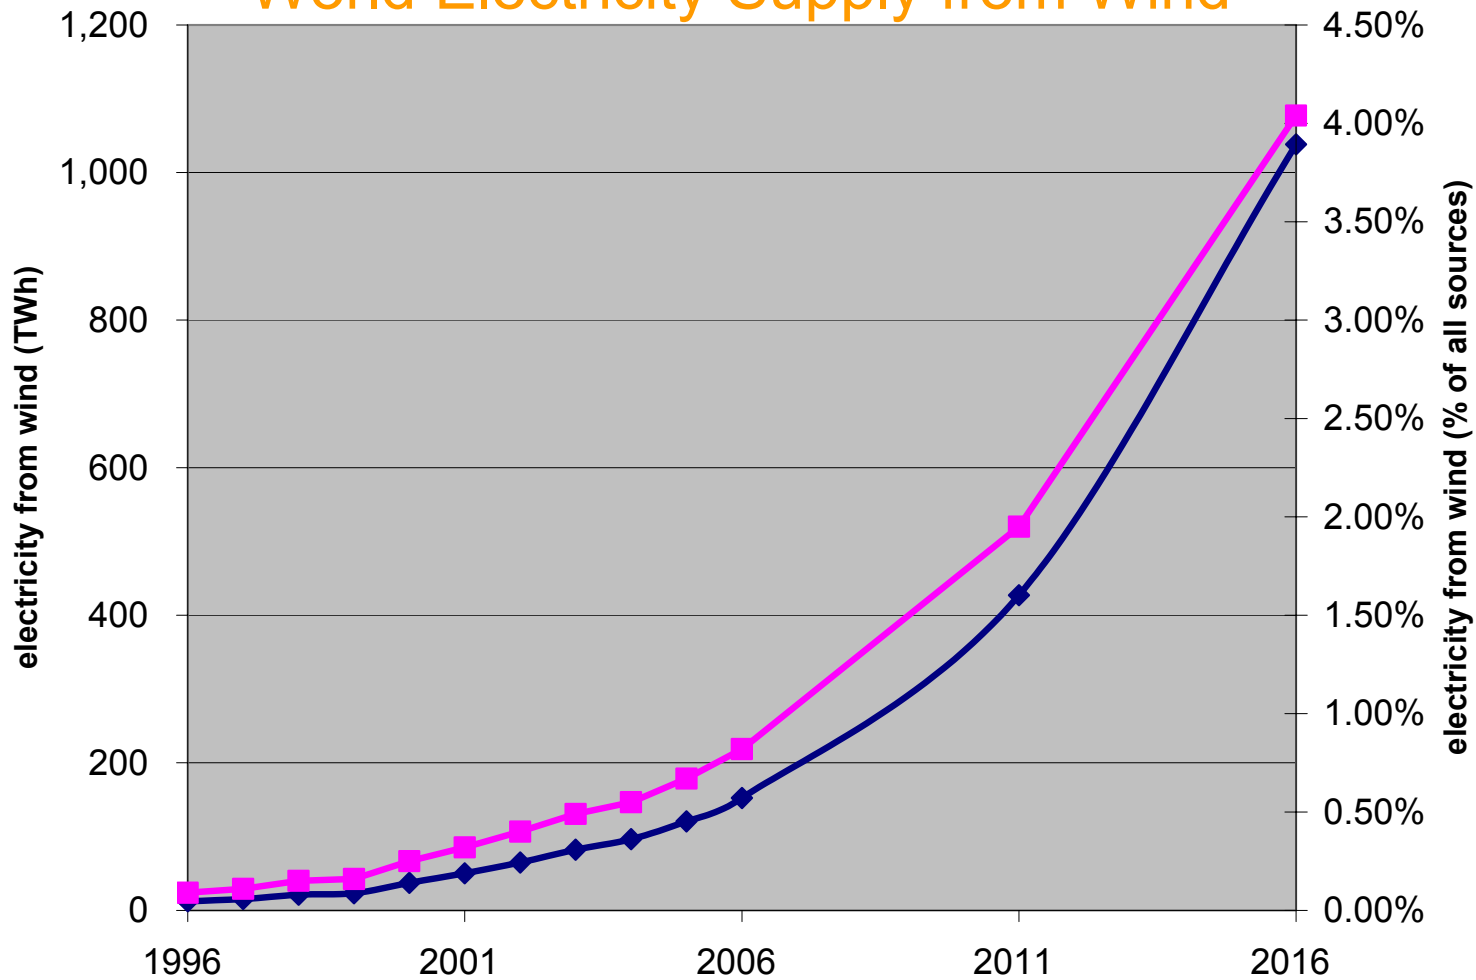

Source: Emerging Energy Research

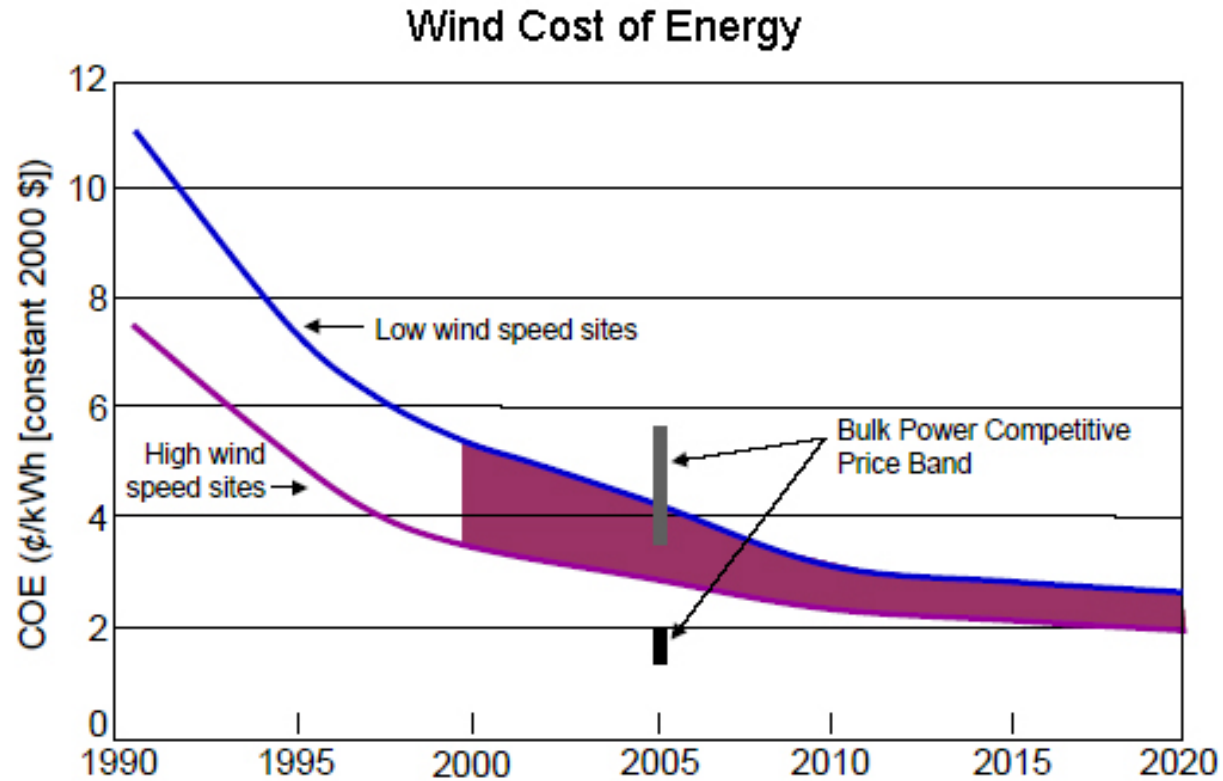

***\$500 billion will be invested in the US by 2030***

### Cumulative MW - Forecast 2011 and 2016

## World Electricity Supply from Wind

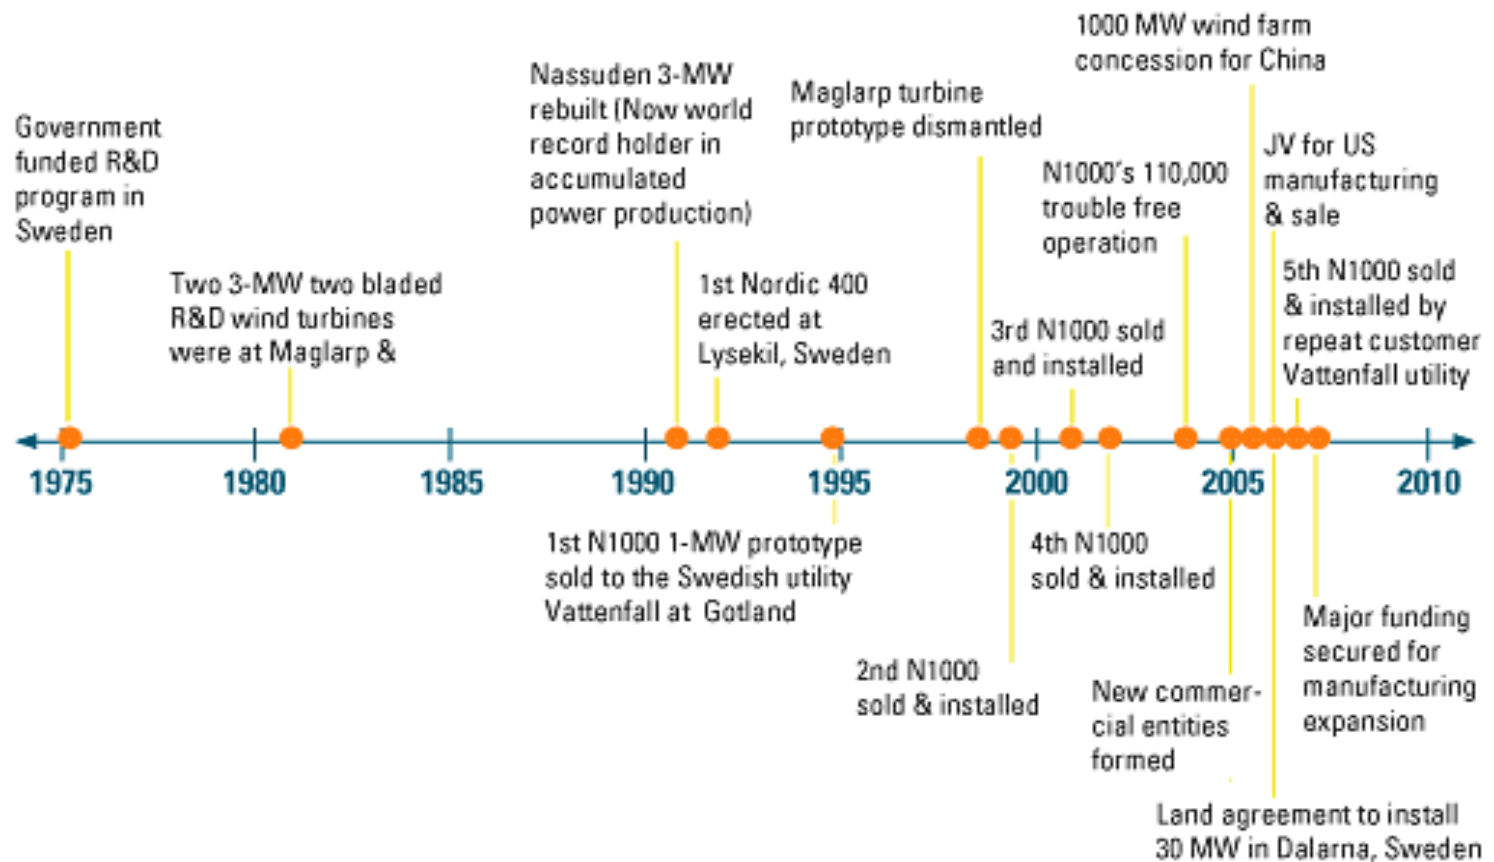

## The Nordic Philosophy:

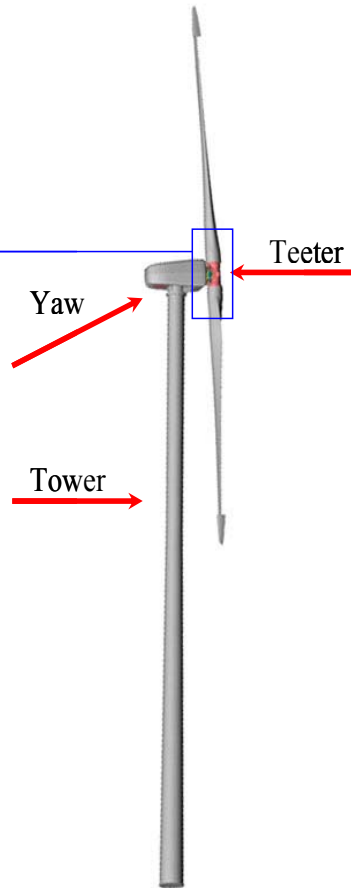

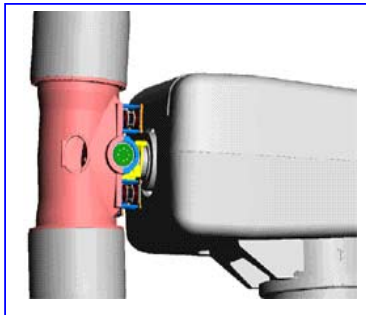

Simple,  
Reliable,  
Cost Competitive

## History of the Nordic Design

# Two blades are better than three

The Nordic 1000 (1MW)

The Nordic "flexible design"  
lightweight & elegant

The "Danish Topology"  
rigid & massive

## The Nordic Advantage

High reliability

Lower cost for transport and installation

Lower cost of construction and maintenance

Optimized for high wind environment

Low cost of energy produced

Less dangerous to bird life

## Management Team

**Steve Taber - CEO** – 25 years launching and managing successful, innovative ventures especially wind, solar, and energy efficiency.

**Prakash Ramachandran - CFO** – 20+ years in various senior financial roles in USA and Hong Kong. Previously, CFO of Novariant, a venture funded \$50M revenue GPS company in Fremont, CA and CFO of \$300M business group in Hongkong.

**Dr. Charles Gamble – CTO** – 15+ years experience in the wind energy industry including 5 years at Garrad Hassan & Partners.

**Gregg Mead – VP Manufacturing**– 25+ years experience in manufacturing operations. His experience includes positions as: VP of Manufacturing/Supply Base Management at Condor DC Power, VP of Manufacturing Operations at STM Wireless Inc., etc.

**Eric Thompson – Sales & Marketing VP**– 20+ years experience in the renewable energy industry.

## Summary

- Large & Growing Market for wind energy
- Experienced Management Team
- Proven, Reliable Technology
  - inherent cost advantage of 10% or more
- Funded by Goldman Sachs and other renewable energy investors
